New Muni Releases Still Setting Records as Q4 Begins We are only a week into Q4 today but as of this writing, 2025 continues to be another banner year for Municipal Bonds, and The Bond Buyer's Municipal Marketplace®, also known as

The Red Book, looks forward to confirmation of that once final issuance numbers are

released after that ball drops in Times Square!

What has your firm experienced so far in 2025? Deep into the fall season now, have you reached most of the goals you set back in January or do so many new bond issues this year have you in non-stop "catch-up" mode and always feeling just a bit behind?

We are less than a month away now from the release of the Fall 2025 edition of The Red Book and are pleased to report a robust sales season of our own this year, reflecting what's trending in the industry. Established customers added new offices – two or more offices in

several cases (See **Company News**, below.) - to their Listing packages while others increased their advertising space or added full color to their advertising. In fact, look to open the most "color-filled" edition of The Red Book in decades when it heads out to mailboxes the first week of November!

2025 Cal Pub Set for Nov. 3-5 in San Diego

connections that might not be made any other way while also enjoying what sometimes feels a little like a family-reunion at these events. If you do attend, please stop by and introduce yourself to John Schade, Regional Sales Manager, and me as we love meeting the faces behind the names. The Red Book's sole purpose is to connect you all with one another through a simple, straightforward media that helps you build your business as you develop long-standing relationships with those who, like you, bring to market thousands of municipal bonds

valuable contacts during the term of the license. (See **Business Development Center**, below.) Mention this Publisher's Letter when you reach out to us, and we will take 25% OFF orders placed by December 31! May you all have a productive and prosperous end to 2025! 70m Toursaid

Taft/ Sherman **N**Howard

Sherman & Howard has joined forces with Taft, one of America's fastest-growing middle market law firms. Our combination brings a deeper bench of legal services, industry knowledge, and nearly 140 years of innovative thinking to the Mountain West

and towns throughout the Midwest and the Mountain West serving as bond, issuers, tax, borrowers, disclosure, and underwriters counsel. We take a proactive stance in our work, foreseeing potential legal challenges and opportunities, as we assist clients with bond financings, economic development instruments, tax incentive programs, and novel financing methods for projects throughout the country.

Both firms have been pivotal in the economic development and growth of numerous cities

their accompanying contact information. Delivered in an Excel spreadsheet twice during the year, the data file provides main- and branch-office locations and the sections in which they list. Each record contains the individual's first and last names, title, postal and e-mail addresses, and phone and fax numbers. For Municipal Issuers, we also provide debt totals and the number of issues released going back more than a decade.

The Red Book Database might be just the resource to meet those needs and more. The Database includes all firms and individual names that are listed in The Red Book as well as
